

MAKE YOUR NEXT MOVE A MASTER MOVE

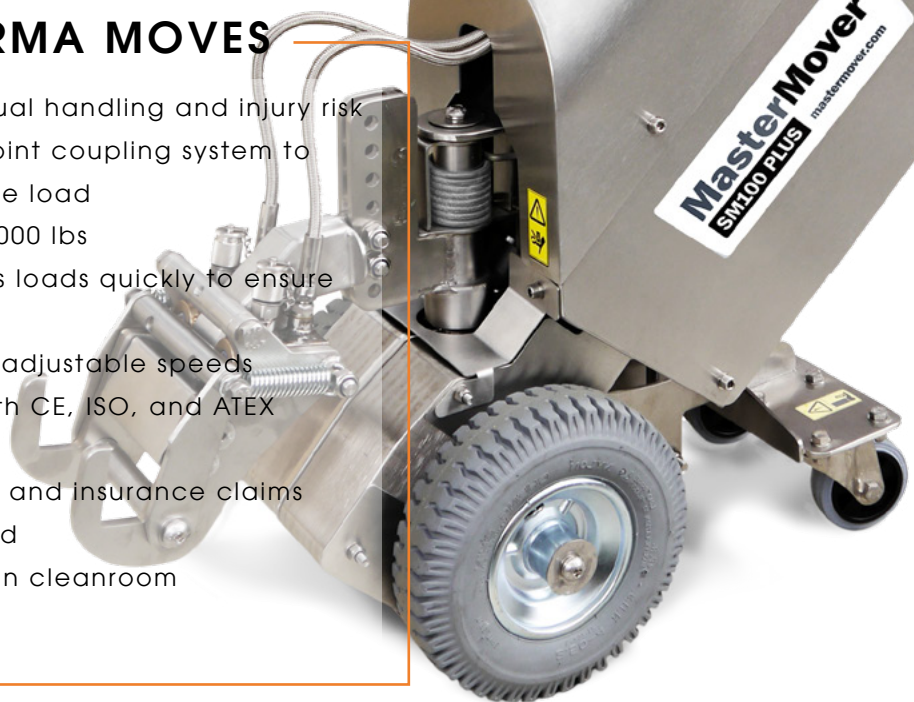

BATTERY POWERED TUGS FOR THE PHARMACEUTICAL INDUSTRY

MOVING FORWARD ENVIRONMENTAL HEALTH & SAFETY

HPNE's MasterMover pedestrian operated equipment enables you to safely move heavy vessels and equipment in sterile pharmaceutical production environments. Protect staff, achieve compliance and ensure expensive products aren't contaminated or damaged. With adjustable acceleration speeds, precision parking, and total control, prepare to be moved.

SMOOTH PHARMA MOVES

- Dramatic reduction in manual handling and injury risk
- Standard and bespoke 4-point coupling system to improve safe handling of the load
- Easily move loads up to 26,000 lbs
- Electronic clutchplate stops loads quickly to ensure safety of product
- Puncture proof wheels and adjustable speeds
- Designed in conjunction with CE, ISO, and ATEX quality standards
- Reduction in compensation and insurance claims
- No operator license required
- Ideally suited to operating in cleanroom environments

THE BATTERY POWERED TUG RANGE

MasterMover

**STAINLESS STEEL ELECTRIC
SM100+ SS POWERED TUG**

On board hydraulics and 2 powerful drive motors make it suitable for moving 2600 lb loads, even on slopes.

MasterMover

**STAINLESS STEEL ELECTRIC
TUG: MT5/400+ SS**

The detailed and agile design makes it perfect for moving heavy loads up to 8800 lbs in areas with restricted space.

MasterMover

**STAINLESS STEEL ELECTRIC
TUG: MT20/1200+ SS**

Compact size and easy to use functions ease the movement of heavy loads up to 26000 lbs.
