

Custom Spool Trolley

By HPNE

Improve storage and organization of tubing

Our Custom Spool Trolley from AllpaQ is ideal for the organization of tubing within a cleanroom environment.

Made of a lightweight plastic, this product has individual sections that are removable for cleaning. They also allow for company branding, including a logo or room label on the side of the product, and are customizable to include anything that you need for your bioprocess. With swivel castors and brake castors for easy transportation, our Custom Spool Trolley can help streamline your bioprocess for both upstream and downstream processing.

Features and Benefits

- Swivel castors and brake castors for easy transportation
- Detachable cutting tray
- Ability to modify spool trolley for specific needs
- Lightweight plastic is user-friendly for operators
- Reusable, allowing products to be in rotation for years
- Spillage control and jet washable – individual sections are removable for cleaning
- Customizable to add branding, room name, or product description
- Have multiple tubing sizes accessible in one place
- Notch to secure tubing
