

MasterMover

Make Your Next Move, A Master Move

Our battery operated electric tugs allow you to maximize suite uptime and are designed to be safely operated by one person without an operator license. Streamline the transportation of loads between 4,400 lbs and 26,000 lbs, with adjustable acceleration speeds, precision parking, and a compact footprint.

SM100 Plus

The MasterMover SM100 Plus is an excellent choice for volumes under 1,000L. A press of a button is all that is needed to engage the hydraulics, creating an unbreakable connection to the load. With the combination of a leveraged weight transfer system and 2 powerful drive motors, the SM100 Plus is suitable for moving up to 2,600 lb loads.

Our Range of Electric Tugs

SM200+ SS

Moving up to 4,400 lbs, the SM200+ SS will seamlessly integrate into your cleanroom environment.

MH400+

An Ergonomic handling solution for specialized, high-value pharmaceutical equipment, moving up to 8,800 lbs.

MT5/400+ SS

The detailed design makes it perfect for moving heavy loads up to 8,800 lbs in areas with restricted space.

MT20/1200+ SS

Featuring a compact size and easy-to-use functions, move heavy loads ranging up to 26,000 lbs.
