

HPNE Pump Services

Maintenance & Repair

Expert service. Maximum uptime.

Nationwide service offerings for FlowMaxx and OptiMaxx, with CPC Biotech Quattroflow pump service throughout New England

Installation

Onsite installation and product training performed by an authorized Getinge service technician. Optional installation, operation, and process qualification support.

Preventative Maintenance

As needed, routine maintenance performed onsite or at our factory by an authorized Getinge service technician. May be pre-booked or purchased at the time of equipment purchase.

Repair

Repairs are performed onsite or at our factory by an authorized Getinge service technician.

Extended warranty

1 year beyond the standard 1-year factory warranty. Includes a preventative maintenance and labor + travel in case of repair. May be purchased at time of equipment purchase, or anytime during the standard factory warranty period.

Certified service center

HPNE is a Certified Service Center for Quattroflow, a CPC Biotech brand.

Serving All New England States

- Connecticut
- Maine
- New Hampshire
